

Mohs Surgery has been scheduled for Date: _____ Time: _____

Surgeon David Kouba M.D., Ph.D.

Your Mohs Procedure has been scheduled at: Lambertville MI Office/7301 Secor Rd.
 Woodville/1100 W. Main St. Office
 Wauseon Office/1090 N. Shoop Ave Office

Please be sure to read the enclosed packet of information. It is important for you to understand what a Mohs procedure entails.

We would like to make sure that prior to coming in to the office for your scheduled procedure that you eat a good breakfast or lunch.

THIS IS IMPORTANT AS YOU MAY BE HERE FOR APPROXIMATELY 1.5 HOURS. It may be shorter or it may be longer.

Once the specimen is removed your waiting time in between each specimen will be **approximately 30 minutes. Once patients start to “clear” the wait time may be longer. Please be patient during this time!**

Please be sure to go about your normal daily routine.

1. Take your normal daily medications
2. Dress comfortably, remembering that the waiting area is at times very chilly. You may want to bring a sweater or something comfortable in case you get cold.
3. **If you are diabetic or would like to bring a sandwich that would be advised.**
Our Pharmacy at the Toledo Clinic office does have sandwiches, snacks and drinks available.

If you have any further questions, please feel free to call our office. Thank you
